**Trade.**—The overseas imports during April were valued at £1,983,256, which shows an increase of £179,352, or nearly 10 per cent., as compared with the corresponding month of last year. The total for the four months was £8,403,785, an increase of £1,235,948, or over 17 per cent., over the corresponding figures for 1910. There were increases in most of the principal articles—apparel and soft goods, cordage and twines, metal manufactures, machines and machinery, and timber.

The overseas exports for April amounted to £1,896,870, being a decrease of £160,442, compared with the corresponding month of last year. For the four months there was a decrease in the overseas exports of £1,098,118, or over 10 per cent., as compared with last year.

Principal increases during the four months were— £

Butter...	...	...	...	165,655

**Imports at Sydney.**—Excluding the value of the imports from State ports, the articles imported at the port of Sydney in April were valued at £2,475,128. The following is a summary of the imports during the month :—

	Weight.	Measurement.	Value.

To State Ports	1,923	5,259	„

A few special articles, denoted by number in the detailed table within, have been converted into weight or measurement, and are included in the above statement. During the four months ended April, 1911, the overseas imports were valued at £8,108,877, and the Interstate imports at £2,688,131, the total of the two being £10,797,008.

**Public Finances.**—The Public Accounts for April show that the net revenue for the month was £1,052,339, or £273,571 less than in April of last year. During the ten months ended 30th April, the revenue was £11,601,440, being £54,736 more than the corresponding period of the last financial year.

Principal increases during the ten months were— £

From Railways and Tramways	...	690,913
“ Lands ...	...	125,149
“ Taxation ...	...	145,513
“ Sydney Harbour Trust	...	29,549
“ Water and Sewerage Rates	...	7,120

The only item to show a decrease of more than £8,000 was “Commonwealth Returns,” which were £963,417 less than for the corresponding ten months of last year.

The expenditure during April was £1,311,447, a decrease of £47,125, as compared with April of last year. During the ten months the expenditure was £11,976,796, being £642,179 more than in 1909–10.

Principal increases during the ten months were— £

Business Undertakings	...	345,324
Government Departments	...	156,007
Interest Repayments	...	155,596

Sinking Fund and Redemption Payments show a decrease of £14,748.

On the 30th April, 1911, the Consolidated Revenue Account was in credit to the amount of £497,901.

**Railways.**—The report on Railways for the quarter ended 31st March shows satisfactory results. Compared with the corresponding quarter of last year, the earnings show an increase of £97,587, and the expenditure an increase of £64,290. During the period there were 318,291 additional train miles run, and 1,619,796 additional passengers carried. Relatively the earnings decreased by  $\frac{3}{4}$ d. per train mile, and the expenditure increased by  $\frac{1}{4}$ d. per train mile.

**Banks of Issue.**—The banking averages for the quarter ended 31st March show that the current accounts increased by £1,534,003 during the quarter. Compared with the corresponding period of last year, there has been the large increase of £3,274,905 in current accounts, while deposits as a whole increased by £5,598,892. Reserves of coin and bullion were £2,335,391 more. Advances increased by £320,090 during the quarter, and during the year by £4,635,423. The proportion of cash, bullion, and notes to total liabilities now stands at nearly 28 per cent.

**Mineral Production.**—The value of the minerals—silver, copper, tin, and coal—exported from New South Wales during the first quarter of 1911 was £1,348,436, an increase of £527,201 as compared with the corresponding quarter of 1910. The output from the silver-lead mines, and the exports of copper show substantial increases in value, compared with the first quarter of 1910, but the export of tin shows a slight falling off both in quantity and value. The output of coal was seriously affected by the miners' strike in the early part of 1910, and the exports for the first three months of 1911 show comparative increases of 725,127 tons, and £366,252 in value.

The gold yield during April was 14,640 oz. crude, equal to 11,901 oz. fine, valued at £50,555. The value of gold produced during the four months was £229,340, and showed a decrease of £40,204, as compared with the corresponding period of 1910.

**Prices.**—The general index number for April was slightly below that of March, and over 3 per cent. lower than for the corresponding month of last year. The index number for pastoral produce was 1,155, and for metals 1,159, and for all articles 1,153. During the month, the prices of butter, wheat, flour, hides, copper and tin advanced; but wool, both greasy and scoured, tallow, frozen mutton, lead, and coal declined in value, other articles remaining at about the same level as those ruling in March.

**Meteorology.**—During April the prevailing weather conditions over the whole State may be expressed as fine, dry, and cold, and the rainfall has been the poorest for a considerable time, being quite in contrast with that of January and February of the present year. About the middle of the month light to heavy rain was reported fairly generally over the eastern districts, the heaviest falls being on the North Coast; but at the majority of stations west from the Plains, and in many parts of the Southern tablelands, no rain whatever was recorded.

**Land Selections.**—During April 85 new settlers applied for 94,477 acres; and 70,364 acres, representing 32 blocks, were set apart for residential settlement. Since the beginning of the year, the number of new settlers has been 449, and the area applied for 356,070 acres. The original area set apart for residential settlement since the 1st January has been 226,688 acres, representing 267 blocks.

**Vital Statistics—Sydney and Suburbs—April, 1911.**—The Births registered numbered 1,325, equal to 25·20 per 1,000 of population; of the total, 681 were males and 644 females. The rate is satisfactory, being the highest for the month of April for the last nine years, excepting in 1907 and 1910.

The total Deaths numbered 511, namely, 287 males and 224 females, equal to a rate of 9·72 per 1,000 of population, being below the average mortality rate for the previous five years.

The Infantile mortality was 70 per 1,000 births, and is the lowest on record for the month of April, being 26 per cent. below the average for the last decennium.
